

LIVE-IN CAREGIVER PROGRAM

Why a live-in caregiver?

Our parents are getting old. Unfortunately, that's life. We are the sandwich generation - trying to juggle our duties as a child with our duties as a parent. And let's face it - our parents are not making it easy for us, are they? We all have this scary vision of one day finding them helpless, not able to call out for help. It can happen - we all know it. In fact, it's inevitable if we don't take steps to guard against it.

What can we do to guard against it? Well, we can find a good nursing home. They do exist, but can we afford them? Perhaps... or perhaps not. But at least, our parents would receive proper medical care and we could concentrate on our other duties even though it tears us apart inside. What choice do we have? So what if it is too far? What choice do we have? So what if we feel guilty about not having enough time to visit them? What choice do we have? Do they feel lonely? Yes, they do because they are not in their homes anymore and we simply cannot visit them as often. What choice do we have?

Nursing homes have a long waiting list. They are expensive. But most of all, they imply finality and the end of things as we know them. Our lives are forever altered. We don't like it and our parents like it even less. What choice do we have?

We can suggest another option. One that will let your parents stay at home, is much cheaper and, most importantly, provides them with quality medical care at the same time. A solution that will give your parents companionship and comfort in their own home. A live-in caregiver. Someone friendly and caring that can become a trusted friend to your whole family. A person who will live with your parents, take over many of your current duties, give your mother and/or father a sense of safety and of being cared for. Peace of mind for you as well as them is priceless, but it does not have to be expensive.

Finding a good caregiver takes time too. But most probably less time than finding a quality nursing home. It is not easy, either. You have to screen them, try to find the best match, and there must be some trust established before you allow yourself to place them so close to your parents.

That's where T&CS Canada comes in. Our task is finding qualified caregivers who are motivated and eager to help. We search for them around the globe, as

there is a chronic shortage of caregivers in Canada willing to live with their employers. For many years, our government has granted the opportunity to its citizens to recruit foreign workers as live-in caregivers. These caregivers, if qualified, can come to Canada with a valid work permit.

Did you know?

- ♪ You can deduct room and board from the salary you pay your caregiver
- ♪ Salaries paid to your caregiver can be tax-deductible (ask your accountant)
- ♪ A live-in caregiver can help when your parents need constant care

- ♪ If a problem arises, contact either appropriate authorities or the agency that helped you bring the caregiver
- ♪ Talk to your employee – many problems are caused just because of misunderstanding

Why T&CS Canada?

We already have a list of caregivers who are willing to come to Canada. We have their documentation, educational and professional experience certificates. We have the paperwork ready when we place them on our roster. If you find someone you like on the list, it can cut the time by a few months. We will take care of the employment contract, of getting your business number, of getting your job offer validated by the HRDC. We take care of the whole process until your caregiver arrives in Canada. All you will have to do is to pick her/him up at the airport and introduce her or him to your family. We can even take care of the monthly accounting and dealing with Revenue Canada on your behalf if that's something you would rather not even think about.

All the caregivers that T&CS Canada accepts as clients are qualified and skilled. Most of them have a nursing education and several years of experience in hospitals, nursing homes, children wards, nurseries, etc. Those who do not have a nursing background have experience in giving care to either children or seniors. They all have one thing in common - they have a genuine inclination towards such work and are keen to create a long-term growth-oriented career in Canada. By placing them with respected and serious employers, we create a win-win situation for both the employee and the employer.

Before being registered, each candidate is required to pass through a rigorous selection system. Our representatives collect and check the references from past employers, and screen the candidates during a subsequent personal interview. Needless to mention, each candidate has a satisfactory educational background and/or experience to qualify as a Live-in Caregiver, including:

Our many years of experience with immigration issues enables us to complete all the paperwork necessary to bring the foreign worker to Canada - there is very little that would be required from you as the employer and there is no charge for our services - The caregivers pay us for completing the paperwork. We can prepare a formal contract between you and the caregiver. We can prepare your application for a foreign worker to the Human Resources Development Canada office. We can prepare the application for a work permit for the caregiver. All there is for you to do is to let us know what it is you are looking for in your caregiver, what you can offer to her/him, and when the time comes and all the paperwork is done, simply sign the application before it is sent to the HRDC

T&CS Canada offers

- ♪ Assessment of your needs
- ♪ Verification of minimum requirements
- ♪ Presentation of caregivers' profiles in accordance with your needs
- ♪ Advertising services to comply with the requirement of recruiting local caregivers first (you pay the cost of advertising)
- ♪ Verification of foreign worker's references
- ♪ Consulting services related to employment of a foreign worker (obtaining a payroll registration, deducting IE, CPP, and income taxes and payments to the CCRA, labour standards, etc.)
- ♪ Preparation of employment offer and employment contract
